CARE INSTRUCTIONS AND MATERIALS

FABRICS

SCUBA LIGHT JACQUARD

Technical and comfortable Jacquard fabric.

TECH INTERLOCK COTTON-POLYESTER

High comfort, soft fabric. Thickened effect for added warmth without extra weight.

CIRCULAR 3D KNIT

3D fabric, providing exceptional softness. Keeps the body warm.

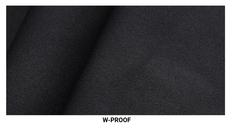

INTERLOCK

High comfort, soft 3D fabric.

W-BREAK

Ultralight fabric ideal for light windbreakers as it has been treated with a thin wind-proof finish.

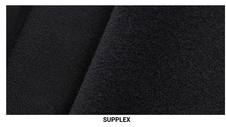

W-PROOF

High-tech fabric treated with a water-proof finish. Ideal for training jackets and tops to maximise performance even in bad weather conditions.

PER-FLEECE

Stretch fabric characterised by a thin gauze inside. It is specially designed for training wear being lightweight yet warm and comfortable.

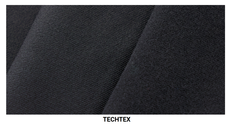

SUPPLEX

Breathable and soft fabric. Hold its shape and does not get wet easily. Dries quickly.

GRANT

Fabric with ornate weave, light, comfortable and shower-proof.

TECHTEX

Two-yarn fabric that guarantees excellent compression, favoring movements during sports. It can also be slightly brushed.

SOFTSHELL

Resistant and versatile fabric; it maintains its characteristics over time.

COTTON

Made of soft and comfortable cotton.

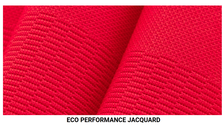

SOFTLOCK

High-tech fabric specially designed for match kits. It's light, very malleable, and tear resistant. Guaranteed to dry super fast.

ZEPHIRO

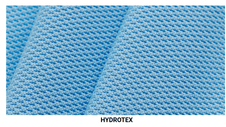

Thanks to the microfilament weaving, this fabric is extremely light, a soft hand on the skin and excellent breathability this fabric was developed for running.

ECO PERFORMANCE JACQUARD

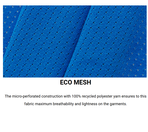

Performance Jacquard technology is the latest innovation to be implemented by Macron: this state-of-the-art technology has never been used before and offers lightness teamed with superior performance. It consists of an innovative Polyester fabric that keeps skin dry allowing more intense training, for longer. The exclusive top-performance jacquard structure supports the body's natural breathability: it keeps perspiration away from the skin and disseminates it across the surface of the fabric for faster evaporation.

The design was devised with painstaking care to ensure a dynamic fit in order to accommodate modern-day high-speed styles of play. In those areas most susceptible to sticking, we offer greater comfort and support, while ensuring more breathability in other areas.

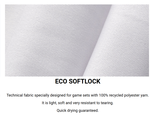

HYDROTEX

The softness linked to the elasticity of this fabric has been designed for the free time.

ECO MESH

The micro-perforated construction with 100% recycled polyester yarn ensures to this fabric maximum breathability and lightness on the garments.

ECO SOFTLOCK

Technical fabric specially designed for game sets with 100% recycled polyester yarn. It is light, soft and very resistant to tearing.
Quick drying guaranteed.

ECO ZEROTEX

Micro rice grain yarn for breathability and thermoregulation under all conditions. Make the garment extremely light for high-level performance.

SMOOTEX

The micro perforated fabric offers maximum lightness and breathability

PERFORM

The jersey weave with elastane guarantees regular compression for a good body fit.

THERMO BONDED FABRIC - DOUBLE FACED

Durable, smooth looking and wrinkle-free fabric. Double faced effect, with different colors between outside and inside.

POLYAMIDE + POLYPROPYLENE DRYARN + POLYESTER

Light, soft fabric. Keeps the body fresh. Maximum breathability. No need to iron.

AIRTEX

Ultra-light fabric, guarantees good wind protection.

BRIGHTEX

Comfortable and resistant fabric, the shiny appearance and its construction guarantee versatility on sportswear.

COMBTEX

The yarn and the texture of this fabric give it excellent resistance without sacrificing breathability

POLYESTER LIGHT STRETCH

High-comfort, stretch fabric.

CHAMTEX

Versatile shuttle-woven fabric with shower proof characteristics thanks to a specific internal waterproofing treatment. Combines with different types of lining, it guarantees the specific warmth of each garment.

INVIC-TEX

Ultrashed fabric specially designed for training wear thanks to its resistance and performance properties. Its technical properties ensure optimum performance as well as maximum comfort.

DRYTEX

The rice-grain construction of the yarn and the interlock weave guarantee the maximum breathability and lightness of this fabric, ideal for athletes.

EVERTEX

Comfortable and tear-resistant fabric. Thanks to the interlock construction which guarantees strength and versatility of use, it is ideal for technical sportswear.

ESPANTEX

The special combination of two yarns (spandex and polyester) ensures a high degree of compression, encouraging natural body movement.

POLYDIAGONAL

This fabric combines the hot hand grinding process with a diagonal feature that bestows high elasticity to the fabric. the fabric was expressly studied for travel garments giving a confortable filling in every situation.

POLYDRY

In this fabric the outer interlock construction guarantees good elasticity of garments, while the emerized interior gives a warm sensation.

ZEROTEX

The micro rice-grain construction of the yarn aids breathability and sweat evaporation in any conditions. Makes the garment extremely lightweight for high-level performance.

WINDRUNNER LIGHT

Windproof, light fabric which is breathable and comfortable

100% CARBONIO EVA COMPACT

Carbon fiber are micro fibers and are composed mostly of carbon atoms. Carbon fiber have several advantages: very high stiffness, high tensile strength, low weight to strength ratio, high chemical resistance, high temperature tolerance and low thermal expansion.

The usual process to produce a carbon fiber is that the carbon atoms are bonded together in crystals that are aligned parallel to the axis of the fiber as the crystal alignment gives the fiber a high strength-to-volume ratio (stronger than expected for its size).

ARMOUR FIBER

Shower-proof fabric made from yarns which make the garment tear resistant and super elastic thereby ensuring maximum comfort. Specially created for rugby and other contact sports.

RESIST HEAVY-TEX

The yarns of this fabric give garments excellent tear resistance paired with good elasticity which guarantees maximum comfort. Developed mainly for contact sports.

DOUBLE FIBER

Breathable and light, ensures the best performance.

ELASTIC FIBER

Lightweight, elastic and soft fabric, it guarantees an excellent comfort.

ULTRALIGHT FIBER

Soft and smooth-looking fabric, thanks to its tight internal coating it allows good isolation from external agents, guaranteeing excellent comfort.

TOUGH FIBER

Lightweight and resistant fabric, the yarn and the construction guarantee good isolation from external agents.

M-PERFORMANCESYSTEM

System of textile fibers developed to ensure the best fit and comfort. It ensures light weight garments and breathability while accompanying every movement of the athlete.

M-DRYSYSTEM

System of textile fibers optimized to enhance breathability The specialized yarn fibers allowing perspiration to evaporate quickly, enhancing the body's natural thermal regulation and reducing skin irritation.

M-WARMSYSTEM

System of textile fibers with thermal protective properties. Adopting synthetic high-density fibers, M-WarmSystem keeps the athletes body away from external cold while ensuring breathability and light weight.

STRETCH POLY

High-comfort, stretch fabric. Support for muscles.

VERTILOCK

Technical fabric with vertical jacquard suitable for match day shirts. Lightweight, durable and soft for optimal comfort.

MICROFIBER

SQ MICROFIBER
HQ MICROFIBER
HP MICROFIBER
STRETCH MICROFIBER
LIGHT MICROFIBER

Resistance and lightness characterize this fabric.

POLY SUEDE

Soft fabric that prevents skin irritation.

MESH 'MICROFRESH' 3D DESIGN

High-tech fabric, keeps the body cool and dry.

INTERLOCK 'HIGH COMPRESSION'

High compression fabric for a strong support. Keeps the skin dry

TECH INTERLOCK LIGHT COTTON-POLYESTER

Comfortable, light, soft fabric.

TECH COTTON JERSEY

Light, soft fabric which moves with your body all day long Soft fabric that prevents skin irritation.

POLYESTER MESH

Soft, light, breathable fabric.

INTERCOT

The combination of two yarns and the interlock weave give this fabric a high level of comfort.

POLYTECH

This fabric combines warmness and a considerable elasticity for a comfortable fit.

TANKTEX

Technical fabric constructed with extremely tearresistant yarns, specially designed for contact sports.

ECO PERFORMANCE JACQUARD

Performance Jacquard technology is the latest innovation to be implemented by Macron: this state-of-the-art technology has never been used before and offers lightness teamed with superior performance.
It consists of an innovative Polyester fabric that keeps skin dry, allowing more intense training, for longer. The exclusive top-performance jacquard structure supports the body's natural breathability: it keeps perspiration away from the skin and disseminates it across the surface of the fabric for faster evaporation.

The design was devised with painstaking care to ensure a dynamic fit in order to accommodate modern-day high-speed styles of play. In those areas most susceptible to sticking, we offer greater comfort and support, while ensuring more breathability in other areas.

HD BONDED

Technical fabric, reduces heat loss for effective protection against the cold.

TECH PATTERN COTTON-POLYESTER

Comfortable, soft fabric.

BRUSHED FLEECE

Heavy and at the same time very soft fabric. Keeps the body warm.

BRUSHED FLEECE WITH ANTI-SPRAY COATING

Fabric with external coating to make it water resistant, while the brushed fleece inner surface makes it super comfortable.

WINDLOCK JACQUARD

Breathable, lightweight jacquard fabric.

CHECKED JACQUARD

Jacquard fabric with a checkerboard weave.

ECO FABRIC

ECO SOFTLOCK

Technical fabric specially designed for game sets with 100% recycled polyester yarn.
It is light, soft and very resistant to tearing.
Quick drying guaranteed.

ECO MESH

The micro-perforated construction with 100% recycled polyester yarn ensures to this fabric maximum breathability and lightness on the garments.

ECO MICROMESH

Breathable technical fabric specially designed for game sets with 100% recycled polyester yarn. It is comfortable thanks to its softness and elasticity.

ECO ZEROTEX

Micro rice grain yarn for breathability and thermoregulation under all conditions. Make the garment extremely light for high-level performance.

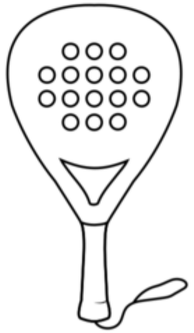

Global Recycled Standard
100% GRS Recycled polyester
Certified by ICEA
ICEA-TX-3443

FSC FORESTS FOR ALL FOREVER

CARE INSTRUCTIONS

Machine wash cold (30° C) - Do not bleach - Do not tumble dry - Do not use softener - Iron at low temperature - Do not iron on prints or logos - Do not dry clean

For Padel Rackets: Dry rackets off if they come into contact with water - Keep away from heat sources - Store in a Macron Padel bag, with pockets lined with waterproof material.
